"So This is Marriage."

**A Modern Story That'll Hit
Home in Every Home! With a
Magnificent Spectacular Biblical
Sequence Done in Technicolor as
in "The Ten Commandments."**

Marriage is like dancing—you've got to keep in step! But a jazz-time wife and a wait-time husband started stumbling and—She was a jazz-time mother raising a jazz-time kid. But her husband objected to her flapper ways, and she objected to criticism. So when he washed the make-up from her face, and told her he wanted his wife to look like a wife, she—Solomon in all his glory was never more glorious than his father, King David. And the story of King David and Bath-sheba is shown in natural color, with all the lavish details of court life in ancient Jerusalem, in "SO THIS IS MARRIAGE."

Coming Next Week :
Sir John Martin Harvey

IN
"The Only Way."

Board of Trade Reorganized

A well attended meeting was held in the Savoy dining room on Tuesday, when the Board of Trade, which had languished for some years was reorganized. B. Woodhull was appointed to the chair with Herbert Gill as secretary-treasurer. The matters taken up by the meeting were: The permanent improvement of the main street, the shortage of grain cars, the advent of the Calgary Power Co., and the desirability of burning as many weeds as possible before snow-fell. Action was taken in all these matters and committees appointed to handle those items where such were needed. The meeting then adjourned to Dec. 8th at 8:30, when the annual meeting will be held and officers for the coming year appointed. The public at large in the county as well as the village are urged to attend this meeting and take part in the business transacted.

Bride-To-Be

Is "Showered"

Mrs. J. Matlock gave a miscellaneous shower on Monday afternoon at the Harmony schoolhouse, in honor of Miss Elizabeth Smith, a bride-elect of this month. During the afternoon Miss Fern Bond and Miss Esther Ferguson rendered instrumental selections on the piano. Refreshments were served by the hostess and were highly appreciated. Miss Smith was the recipient of many beautiful and useful presents.

Catholic Bazaar

November 27

Don't forget the Catholic Women's League bazaar on Saturday, Nov. 27th. There will be plain sewing and fancy work, home made candy, home cooking and all kinds of dressed poultry. A fish pond will be operated for the children. Supper will be served from 5:30 on and crowned chicken, baked beans, brown bread, etc., will accompany the dishes.

Auction Sale Dates

Forty-five horses will be sold at the stockyards in Champion on Saturday, Nov. 20th, at one o'clock sharp. W.W. Sloan is the owner and A. Hopkins the auctioneer. This is stated to be a fine lot of farm horses and well worth seeing by intending purchasers.

F. H. Starr will hold an auction sale on Thursday, Dec. 2, when his entire farm equipment, including horses, mules, cattle, feed, etc., will be sold. As Mr. Starr is leaving the farm everything must be sold. Any inquiries will be answered by phoning 1301.

Chow Sing, formerly proprietor of the Savoy Cafe will spend a well earned holiday in China, leaving Champion this week for the land of his ancestors.

Mr. Murphy was taking his first flight in an airplane. The pilot wistaking in over San Francisco, and when they were about 3,000 feet up the plane went into a nose dive.

"I'll bet fifty per cent of the people down there thought we were falling," the pilot remarked.
"Sure," answered Mr. Murphy "and I know darned well fifty per cent of the people up here thought so too."

Curlers' Meeting Monday Night

A meeting of the Curling Club will be held in W. C. Hoskins' store on Monday evening, Nov. 22nd, at 8 o'clock sharp. As organization for the season will be effected everyone interested should make it a point to be on hand. The same suggestion would also apply to those interested in skating or hockey. It will require prompt action and an unknown amount of work to get the skating rink in condition to be used this year. As yet the method of operating the rink has not been arranged, so the curlers' meeting would be a good place for the skaters to be represented largely. In the past the curlers have been indifferent about meetings, but it is to be hoped Monday night will evidence a change of heart in that respect.

O.E.S. Whist Drive Pleasant Event

The first of a series of whist drives was held in Campbell's hall under the auspices of the O.E.S., on Monday evening. Eight tables of cards were in play and the evening hours passed very pleasantly. The first part of the evening was followed by refreshments and was finished off by a most enjoyable dance. The Clever orchestra supplied the music. The prize winners were: Ladies, first Mrs. Hostell, consolation Mrs. Neil McLeod; Gentlemen, first Mr. Neil McLeod, consolation Dr. Freeze.

MACK-BOWIE

A very quiet wedding was solemnized at the United Church Manse, Champion, Alta. on Nov. 18th at 8 p. m. when Miss Viola Mona Bowie, daughter of Mr. and Mrs. Peter Bowie of Reid Hill, Alta., was united in marriage to Mr. Wm. Harvey Mack, also of Reid Hill. The ceremony was performed by Rev. R. R. Hunt, B. A., B. D., pastor of the United Church and witnessed by Mr. and Mrs. Herbert Gill.

SAVOY HOTEL TAKES OVER RESTAURANT

The Savoy Cafe was taken this week by the house management who will handle it in future. Expert help is being secured and the public may rest assured of the best service possible.

Twenty-five per cent of the maintenance and expenses budget of \$83,400,000 to be raised by the United Church of Canada throughout the whole Dominion has been allocated to the western provinces, and of that amount Alberta's share is set at \$135,000.

The whole of Russia is said to be unionized. No metal worker labors more than six hours a day, and no laborer more than eight. People pay for their living in proportion to their earnings. A librarian pays less for the same room than a doctor. Everyone knows what each other earns and pays.

E. F. Crawford is still confined to the house and is suffering great pain. The trouble is connected with his ear and has proven more serious than was anticipated for some time.

NOTES AND COMMENT.

With the tremendous losses involved in the minor's strike in Great Britain in evidence, any possibility of a strike in any branch of the railway service of the country is not to be regarded without alarm, but it is very doubtful whether the people in this country will be any more inclined to yield to the brute force of a strike implies than are the people of Great Britain. To tie up the transportation facilities of the country at any time in the immediate future would work untold hardship upon the farmers of this country. With a decision of the board of inquiry against any increase in pay the railroad conductors and trainmen, especially when the present scale of wages is considered, will have but little sympathy as far as the general public is concerned in insisting upon their demand for increases by strike methods. It is to be hoped, for the sake of everyone concerned, that the obsolete strike will not be invoked in this instance.

The continued fine weather is being highly appreciated by everyone, unless it is the merchant with winter goods to sell. The late period at which threshing was finished, and the shortage of transportation facilities for the tremendous quantity of wheat in evidence has prevented deliveries to such an extent that another month of fine weather will be needed to permit anything like the bulk of the grain being delivered to the elevators even if cars should be plentiful. Up to date nothing better in the way of fine weather could be imagined.

In addition to gas taxes motorists in this country have paid the province \$1,250,000 in licenses during the present year. This automobile business is outgrowing every other industry we have in the country. It won't be long before we will all be able to live on the revenue derived from motor cars.

While developments in the Alberta oil fields have not been as rapid as some investors would have desired splendid progress has been made in assuring the existence of commercial quantities of the precious fluid. The extent of the territory that has been partly proved as oil producing, would indicate that this province will be the future center of the crude oil industry.

Calgary is highly dissatisfied with the arrangements the provincial government have made by which all freight from the E.D. and B.C. and G.W. railways is to be routed over the Canadian National railways. Wheat which was formerly routed through Calgary to the coast will now travel from Edmonton west and it is claimed certain milling privileges in the transit are thus lost to the ambitious city. While there should be plenty of milling wheat for Calgary without getting it from

the woods up north, the exclusive traffic arrangement effected has a number of objectionable features which likely be thoroughly aired in the near future.

Why is it that all election scandals are unearthed in the northern part of the province while nothing of the kind ever occurs in the south? It may be that open prairie is not conducive to election conspiracies, while a covering of trees and brush induces secret evasion of the election act or is the difficulty in the people? At any rate there does not seem to be the least inclination on the part of electors or others in this part of the country to bother themselves about an election any more than they have to, while some do not even get up enough steam to vote. Up north, however, they try most everything, ever heard of to accomplish the return of their favored candidates.

First Politician: There's a place down my way that got a forest, a deep quarry, and a swamp. I wonder if there's anything we can sell it for? Second Politician: Sure. Just the thing to use as a detour while repairing the state road.

**You would
fire him
quick!**

IF YOU had a hired man that did this to your cream you would fire him quick. Yet your cream separator may be doing the same thing and you don't realize it. You can easily tell, without a cent of cost, if your old separator is robbing you. Just ask us to bring out a new De Laval and run your skim-milk through it. Any butter-fat you have been losing will be recovered. Have this cream weighed and tested and you can tell exactly what you have been losing. Hundreds have tried this plan and have found a new De Laval saved from 25 to 50 a month. The new De Laval is the best separator made in 48 years of De Laval manufacture and leadership. It has the wonderful "flat way" how the greatest separator improvement in 25 years. It is guaranteed to skim cleaner. It also runs easier and lasts longer.

Liberal
trade allowances made
on old separators.

Why?

Is the DeLaval Cream Separator recognized as the World's leading Separator?

Are there more DeLaval's sold than all other makes combined?

Do the vast majority of modern Dairy farms throughout North America use DeLaval Milkers and Separators?

There is only one reason why—Quality—Performance—Service!

There isn't any such thing as "good enough" to those who figure the cost of inferior equipment.

We will give you a fair allowance on your old separator.

Payments are arranged so that they are easily met.

Many old separators are wasting enough cream to meet the payments on a new DeLaval.

We carry every staple size in stock as well as a full stock of repairs.

Local and General

Mrs. Audibert of Excal, Alta., is visiting her sisters, Mrs. Chas Matlock and Mrs. Theriault.

"If the woman pays and pays, why is the man always broke?—See So This Marriage."

Ruth Jopling's sixth birthday was celebrated on Tuesday by a party for a number of her little friends with huge birthday cake and all.

Next Friday at 3 o'clock p.m. Ev. Lutheran church services will be held in the local Union church. You are cordially invited to take part.

Miss Ella Stephenson left for Calgary on Monday where she will take a business course in the Garbutt college. Her mother, Mrs. J. T. Stephenson, accompanied her to the city.

A most enjoyable surprise party was held at the home of Mr. and Mrs. C. Schroeder on Tuesday evening in honor of the birthday of Clarence Schultz. Games were played until midnight when a most enjoyable supper was served by the hostess. More games were played when the departing guests, bidding their hosts goodnight, thanked her for the wonderful time.

A British Columbia speaker has figured out the annual liquor expenditure in that province as \$40 per head of the population. This would be serious if the population of B. C. was actually responsible for anything like the total consumption of liquor. The fact of the matter is, however that the country is flooded with tourists for practically the whole year, and these are the big purchasers. This is one of the instances where figures are made to convey anything but actual facts.

Mrs. A. Stevenson, of Blackfalds, Alta., is visiting her parents, Mr. and Mrs. G.A. Manhard.

She was the most extravagant woman he had ever heard of, and to make it worse, she was his wife.—See So This Marriage.

Mrs. T. R. Jopling attended the Christian Science convention held recently in Edmonton.

A Board of Trade committee made decided progress in weed burning on Wednesday, and their work would have been continued had it not been for the snow storm on Wednesday night. Fortunately the movement organized in time to accomplish the burning of weeds on a considerable area, including the golf course. Messrs. M.G. Clever, J.M. Moffatt and

E.J. Clapp were the members of the committee with this matter in hand.

In the sitting-room of a small country hotel the gathering was discussing the weather, and the usual running fire of small talk was under way.

An exceedingly garrulous and boastful man in the party continued to take a good deal more than his share of the conversation. He argued with everyone, boasted of the wonderful things he had done, expiated his own opinions and ridiculed anything and everything that anyone else had to say. At last he declared, "And there's one thing I will tell you. I never make a statement without first knowing what I am talking about." A thin Scot, who had sat listening for a long time without saying a word looked up slyly and said, "Mon, if ye told him what ye know about ye'd be dumb!"

CHANGES MADE IN PERSONNEL OF CUSTOMS PROBE

Ottawa.—Sir Francis Lemaire has tendered his resignation as chairman of the royal commission investigating the administration of the department of customs and excise. He is replaced as chairman by Chief Justice Brown of Saskatchewan, senior member of the commission. Judge Ernest Roy, of Quebec, has been appointed to be a member of the commission.

These are the outstanding features of a statement issued by Hon. J. A. Robb, acting prime minister, at the conclusion of a meeting of the cabinet. The statement announces the opening of the resumed sittings at Ottawa as Wednesday, November 17.

The full statement follows: "It is expected that the inquiry committee will open its sittings in Ottawa, Wednesday, November 17."

Honorable Sir Francis Lemaire, chief justice of the Superior Court of the province of Quebec, has tendered his resignation as chairman of the commission, on account of the great pressure of his judicial duties and also the fatigue incurred by a man of his advanced years in the long journey and arduous work of the commission.

"In spite of the Government's desire to retain him, Sir Francis adhered to his first decision. The Government has requested Chief Justice Brown of Saskatchewan, senior member of the commission, to become chairman. Sir Francis Lemaire was asked to name a successor as member of the commission, to whom he has suggested the name of Judge Ernest Roy of Quebec City, who has been appointed today.

On a few days in Ottawa, where it is expected to open November 17, he is expected to travel to Vancouver and then back to the east coast, probably reaching Winnipeg by Christmas.

Discovers Deposit Of Semi-Precious Gems

Find Near Winnipeg May Be Commercially

Winnipeg.—Beryl, a semi-precious gem stone, when cut, from \$5 to \$20 a carat, has been found in the pebbles of the Red River only 100 miles from Winnipeg.

Two claims, comprising 140 acres, have been staked by the discoverer, Kenneth Hiltner, Winnipeg. He reports 25 to 200 carats over a length of 2,000 feet. The width of the area in which the crystals occur is about 1,000 feet, and within this there are often lenses widening to 100 feet in which numerous fractured crystals can be seen even on the surface.

Will Visit Canada

London.—When the Imperial Conference closes, Canada will have an opportunity of seeing one of the delegates to the conference from the Antipodes. Premier King of New Zealand, plans to return home via Canada, as do some of the Australians, although it is doubtful if Premier Bruce personally will be able to visit Canada.

Reduce French Army

Paris.—Reduction of the total number of men under arms in France from 650,000 to 400,000 is called for in three bills which will be introduced by the Chamber of Deputies on the opening of Parliament. The measures also call for a reduction in the period of compulsory military service from 36 to 12 months.

Canada's Imperial Problem

Montreal.—Canada's imperial problem would be largely solved by the appointment of a political representative of the government in London. England, in the opinion of Prof. F. E. Corbett, formerly in the legal service of the League of Nations, who is now a lecturer in Roman law at the University at McGill University.

Left Books to Library

New York.—Harry Houdini, the magician, left his huge collection of books on magic, spiritualism, witchcraft and demonology, said to be worth \$50,000, in the Library of Congress to the belief of Louis Julliman, his lawyer, who drew up Houdini's will two years ago.

England's First Woman Sheriff

Souhampton, Eng.—The first woman to be sworn in as a sheriff in England has been chosen here. She is Mrs. Jack Welch. The new appointee will be forced to attend any inquest which may occur during her tenure of office.

More Memorists Settlers For Canada

Thousands Coming From Southern Russia Says Bishop Teems

Winnipeg.—Canada is being swarmed more than ever as a land of opportunity by the Memorists, and nearly 7,000 new settlers from Southern Russia will have made their homes in the Dominion, according to Bishop Teems, primate of the Memnistic Colonization Board.

To date, 3,500 Memorists have settled in Canada and are well established and happy in their adopted country, Bishop Teems said.

The movement of Memorists settlers from Russia in 1927 will even surpass that of the present year, he added, although definite arrangements have not yet been made. Those who come here this year will suffer no inconvenience in the matter of getting settled. They will spend the winter in the United States in their settlements, and in the spring will get lands for themselves.

Bishop Teems informed the Memorists saw no attraction in Mexico now.

New Polar Expedition

Dr. Nathan Completes Voyage of Discovery by Airplane

Berlin.—Plans for a new polar expedition by airship on a strictly scientific basis were set forth by Prof. Dr. Nathan, president of the International Society for the Exploration of Arctic Regions, at the opening of the international congress of that body today.

The route contemplated leads, with numerous stops, across Alaska, by way of the North Pole to Murmansk, Russia or in the opposite direction. The airship will be manned by a crew of 10, the men to work in three shifts.

Dr. Nathan declares that the flights of the airship, and the expedition, will be completed by the end of January.

Appointment Is Confirmed

Hon. Vincent Massey Is Officially Appointed Member to Washington

Ottawa.—Hon. Vincent Massey was appointed Canadian minister to Washington by an order-in-council passed yesterday. Mr. Massey, who was named by Hon. J. A. Robb, acting prime minister, to a group of newspapermen. Mr. Massey is in England at the present time with Premier King attending the Imperial Conference in an unofficial capacity.

Leaving Earthquake Area

Settlers Looking for Safer Place to Rebuild Homes

Letchworth, Armenia.—Sufferers of the recent earthquake are preparing their ability to rebuild their homes, have left for more promising parts of the Caucasus. Earth shocks of moderate intensity have continued for a week past. The authorities fear that if they persist the city shortly will be almost deserted. With the advent of cold weather, the people are suffering bitterly, having lost everything they possessed.

Prince George to Come to Canada

Ottawa.—Prince George, fourth son of His Majesty the King, is expected in Ottawa on December 1, he was learned here. While in the capital His Majesty the King will be a guest at Government House. Prince George has been serving as a subaltern in the Royal Navy in Chinese waters.

To Strengthen Act

Winnipeg.—A Co-operative legislation embodying retroactive provisions to take effect on January 1, 1928, is being introduced by the provincial government. This move is being taken as the result of a judgment in Court of Appeal here against the Rural Credits Society.

Military Training Compulsory

Moscow.—Military training for all university students, both men and women, has been ordered by the government. All students will be required to take 180 hours of instruction in military science during their regular four-year course.

May Visit Canada Next Year

London.—Although it has not yet been definitely announced, it is understood His Royal Highness, the Prince of Wales, probably will visit Canada for the Diamond Jubilee celebration next year.

Canada's Death Rate Falling

People Living Longer Recruits Statistical Information Is

Ottawa.—Canada is fighting against death, experts say who are warning, that the death rate among infants and young excess was falling last year, is being gradually reduced. The Dominion now has a uniform system of vital statistics.

Until quite recently each province had a different system. Now, however, there has been no system at all and no vital statistics were compiled except by the cities of St. John, Moncton and Fredericton. In Quebec the records were kept by the churches. Roman Catholic and Protestant. This had been the method for 200 years, and the civil authorities were loathe to meddle. Quebec now joined the other provinces, and will have the best statistics in Canada.

People are living longer because statistical facts are available, which show the doctors precisely what they have to combat. Mr. Coates, Dominion statistician, is assisted in this department by E. S. MacPitt, superintendent of compilation, and W. R. Tracey, who recently made a trip by courier of the health records of the League of Nations, to Geneva, Britain, The Hague, Paris and British cities for the purpose of studying the collection of vital statistics in these countries.

PARLIAMENT TO ASSEMBLE ON DECEMBER NINTH

Ottawa.—Parliament will be opened on December 9, Hon. J. A. Robb, acting prime minister, announced at the conclusion of a meeting of the cabinet. After the formal opening, the Commons will proceed to the election of a speaker on Friday, December 11. There will be an adjournment until December 12.

"The Government," said Mr. Robb, "that with the cooperation of the official opposition, the speech from the throne can be disposed of in one day. Then the business of supplementary estimates will be taken up just as they were last year."

Mr. Robb expressed the hope that considerable business could be accomplished before the Christmas adjournment. After the adjournment, it is unlikely that Parliament will be accessible before the end of January.

Premier King and Hon. Ernest Lacombe, who will be present for the opening. As the part of the reason which comes before Christmas will be largely taken up with the speech from the throne and the estimates, the actual details of the sessional legislative program will not have to be dealt with by the cabinet while the Prime Minister and the Minister of Justice are absent. It is understood, however, that Mr. King and Mr. Lacombe have been in close touch with Ottawa by cable from day to day and are fully informed regarding the work of the cabinet.

From Government House comes the announcement that the state dinner and reception which traditionally accompanies the opening of Parliament ceremonies will be held on the evening of Friday, December 16. Owing to the early part of the session being of such short duration, Sir Evelyn, the governor-general, and Viscount Willingdon will hold the Drawing Room early in January.

Canadian Course Lures Hagen

Walter Hagen, former British Open Golf Champion and winner for three years of the professional golfers' association trophy, will not be seen in action on the Canadian Pacific Railway Company's new course, Langara, situated at South Vancouver. Far from the course, Hagen is looking forward keenly to leaving the park. The Langara course, which is admittedly one of the finest public courses in Canada, was recently built recently by the Canadian Pacific

Langara Golf Course Club House. (Inset) Walter Hagen.

Langara Company at a cost of over \$250,000. It has an average length of 250 yards for each hole. One of the features of the course which has particularly excited Hagen's interest is the abundance of the green grass. The abundance has been found to be an advantage and a great help in the game. Hagen is expected to be present at the test and intends to be present to review fully the course. Hagen has held the office of Vancouver and Victoria.

REUNION DINNER OF CANADIANS IS HELD IN LONDON

London.—Premier Mackenzie King attended the reunion dinner held by members of the Canadian expatriate forces now resident in London. The dinner was given in the Grosvenor Hotel. The dinner was given in the Grosvenor Hotel. The dinner was given in the Grosvenor Hotel.

The dinner, which is held annually on or about Armistice Day, was presided over by Major-General Charles H. Hughes, among those attending were Viscount Grey of Wyndham, Major-General Sir H. Mitchell, chief of the Canadian general staff, General Sir George Milne, chief of the Imperial general staff, General Sir Ian Hamilton and Sir Thomas Greenwood.

Viscount Grey was accorded a vote of thanks and was held to be one of the most successful and happy in the Dominion. The vice president, "I have always preached the same doctrine and I preach it to you as you who have a passionate affection for you and your comrades. I have preached the same doctrine and I preach it to you as you who have a passionate affection for you and your comrades. I have preached the same doctrine and I preach it to you as you who have a passionate affection for you and your comrades."

"On the night of April 17, I saw Canada unity. I saw men from those fine old battalions of Nova Scotia on top of Vimy Ridge, men from the Canadian Expeditionary Force, men from the Canadian Expeditionary Force, men from the Canadian Expeditionary Force."

Viscount Grey concluded with a plea for the setting aside of personal ambition and individualism, and for the setting aside of personal ambition and individualism, and for the setting aside of personal ambition and individualism.

Choose Canadian Stock

California Rancher Buys Fifteen Head Owned by Prince of Wales

Ottawa.—Fifteen head of shorthorn stock owned by the Prince of Wales at his ranch near High River, Alberta, have been purchased by Sheldon and Carmichael, owners of the Kikewood farm, one of the show ranches of Canada. This announcement was made by W. L. Cridge, manager of the Prince's ranch.

Before dealing on the cattle at the ranch, the Prince of Wales, who is believed to have visited many herds in the United States. The shipment consists of five cows and five bulls and six yearling bulls, which are being shipped to Western farms this summer.

Russian Children Eating Garbage

Providence, R.I.—More than 200,000 boys are living the creature comfort life in the streets of Moscow, Russia, according to William W. Patterson, of Pompano, N.Y., who returned to the U.S. today from Russia and the Soviet Union. These youths also eat an existence by feeding from garbage cans and by sleeping under wagons and in the streets, according to Mr. Patterson.

Fewer Deaths From Tuberculosis

Ottawa.—Canada has reduced its tuberculosis deaths since 1900 from 10 per 100,000 population to less than 8 per 100,000. This shows a reduction of more than 100 deaths per 100,000 people in 25 years, or a saving of one death from the disease annually for every 1,000 people or 9,352 lives per year.

Alberta Seed Survey

Will Ascertain Amount of Damage to Seed Crops by Wet Weather

Calgary.—Survey of the entire province has been undertaken by the Dominion seed bureau to ascertain the amount of damage the crop has suffered and the quantity of seed that could be available for spring sowing, according to G. M. Stewart, district inspector. A preliminary report will be issued soon. Although there are occasional grain men in Calgary who view the short shortage of seed as a serious handicap, it is generally admitted that no definite amount of the quantities available can be made until the crop begins to move more freely. It is admitted that many of the tests for outbreeding have given poor results but it is hoped that these can be made to represent the average condition of the crop. The position in many districts is believed to be bad owing to crop damage by the rains.

May Settle In West

Centuries-Karoly, Hungarian Noble Would Go to Western Canada

Montreal.—Countess Karoly, wife of Hungary's wartime prime minister, who is now in Montreal, will not visit the United States to enter the United States, she told newspapermen here. The countess has dropped her suit to visit the United States. She has dropped her suit to visit the United States. She has dropped her suit to visit the United States.

Countess Karoly left for Ottawa to interview Government authorities in connection with farms in Western Canada. It is believed that the Countess will settle in one of Canada's three prairie provinces.

Committee Struggling With Locarno Treaty

Problem Is Delicate and Little Progress Being Made

London.—The legal committee of the League conference headed by Hon. Ernest Layton is still struggling with the Locarno treaty, trying to draft a memorandum on the subject for future guidance in such cases, but apparently has made little progress because of the delivery of the problem and the falling asunder of delegates to agree upon the exact wording of the memorandum.

Mr. Layton is taken for granted, however, that as a result of the delegates' deliberations, the British government will be far more energetic in signing any future treaty like Locarno, though they feel that the result of getting Germany into the League justifies the treaty entirely.

TO ENCOURAGE IMMIGRATION OF FARM WORKERS

London.—When the new agreement between the Canadian and British governments and the Atlantic transportation companies for the continuing of the £2 (£14.25) fare for emigrants from Great Britain to Canada is finally concluded it is not likely that any similar extensions will be made in the classification of the emigrant coming under its provisions.

The existing agreement which will expire at the end of this year is limited roughly to bona fide intending farm workers and domestic servants. It is understood negotiations have been made for Canada should extend the scope of the agreement to include certain classes of industrial workers, but to whether such a course will be followed.

The position taken by Canada's representatives here, it is understood, is that an extension of the agreement to include industrial workers would probably result in the migration of a large number beyond the Dominion's power of absorption.

While the precise terms of the new agreement are still under discussion, it is understood that the extension of the agreement to include industrial workers would probably result in the migration of a large number beyond the Dominion's power of absorption.

Bernard Shaw Buried

London.—It is a great mystery to us," said George Bernard Shaw, when asked for an expression on the award to him of the 1925 Nobel prize for literature.

"I suppose it is given because I wrote nothing at all that year," he added with a smile in a remark by him. He has not yet been officially advised of the prize.

First Service in Royal Wedding

Brussels.—Princess Astrid of Sweden and Crown Prince Leopold of Belgium were married in a ceremony by a Roman Catholic ceremony in the Cathedral of St. Catharine Nov. 10 and the wedding was held in a ceremony which has been kept strictly secret.

ADVANCE TO BE MADE IN OCEAN FREIGHT RATES

Montreal.—Ocean freight rates advanced have been announced by the Canadian Inter-oceanic conference for the carriage of conference cargo to the continent from Glasgow, due to take effect on December 1 next. Decision has also been reached to absorb the 15 per cent surcharge on the transportation of conference cargoes to United Kingdom ports, which has been in effect since September 23 last, and to enforce a new period of rates, which will become effective on January 1. These rates to the continent and to the United Kingdom will run till the end of April.

The increase in freight rates will range from 15 per cent upwards, but it is expected that such advance will be from the rates in force before September 23 and not from those now ruling. In the case of produce from the United Kingdom ports, commodities affected by the new rates are only those included in the charter of the United Kingdom ports of the conference. Cattle, sheep and goats are not affected by the new rates, these coming under the purview of the charter of the United Kingdom ports.

Similar advances have been made by the North Atlantic Continent and the Atlantic United Kingdom conference. Reasons for the rate increases are attributed directly to the prolongation of the strike and the resulting loss of cargo, which has resulted in an increase of operating costs together with a decrease in available cargo carrying capacity.

May Eventually Send Envoy To Canada

But U.S. Will Depend on Consular Service for Present

Washington.—The United States Government has refused to send an ambassador to Ottawa is undecided. Not long ago President Coolidge let it be known that the proposed American representative to the Canadian government was being considered. It is expected the new arrangement will be made to facilitate the handling of matters that directly concern the two governments.

When the United States is going to do about sending a representative to Ottawa is undecided. Not long ago President Coolidge let it be known that the proposed American representative to the Canadian government was being considered. It is expected the new arrangement will be made to facilitate the handling of matters that directly concern the two governments.

division, would do for cow. Apply at
Phone Office.The Car and Fuel Are
Not Always to Blame
When Mileage is LowHere's a story which throws consid-
erable light on the interesting topic
of getting better mileage:A prominent Indianapolis society
leader recently purchased a Chandler
Sealan and was well pleased with her
car excepting the question of mileage.
This lady visited the service station
frequently to see what the trouble was.
After the best mechanics had failed
to discover any, the lady grew angry
and left in a huff.A Chandler travelling representa-
tive visiting Indianapolis shortly after
heard the story. Naturally he investi-
gated, since a displeased Chandler
owner is a rare occurrence.After persuading the fable Chandler-
ite to take him for a ride, he was as-
tonished at her very first move upon
entering the car, for she pulled out
the choke to its full length and hung
her handbag on it!The investigation trip consumed forty
minutes—the choke doing duty as a
handbag-hanger all the while. On
the way back the Chandler man sug-
gested stopping at the service station.
Once there, it was a simple matter
to hook up a spring on the motor side
of the cowl in order to let the choke
serve as a handbag-hanger and yet not
remain extended constantly.The lady doesn't yet know why her
mileage in the same Chandler is very
much better; the choke still does
double duty, and everyone concerned
is happy about this peerless bit of
"trouble shooting!"

NEW TYPE STEERING

When balloon tires were introduced
the problem of steering with low pres-
sure tires became a major factor.
Chandler engineers solved it by de-
signing an entirely new steering me-
chanism, providing a 14.2-to-1 ratio with
adjustment for takeup, and a patented
flexible joint to eliminate any trans-
mission or road shock to the steering
wheel.

GUARDS AGAINST WEAR

Chandler cylinder blocks are of the
finest quality fluxed iron, free from
sulphur and all soft spots. They are
bored, reamed, ground and honed to a
mirror-like finish on the latest type
equipment before installation on the
chassis. This care in building elimi-
nates wear on compression rings and
insures long life to both the pistons
and rings.E. F. CRAWFORD,

and Dec. 1.Geo. Dupue spent several days in
Champion this week.Thomas Sigh, of Calgary, was
a visitor in Champion this week.Mr. and Mrs. Thompson, of
Nanton, were visitors at W. J.
Porter's this week. Mrs.
Thompson is Mr. Porter's sister.A dance in McCullough's hall
on Friday evening last was well
patronized and an enjoyable
time was spent by all present.
The local orchestra supplied
excellent music.The weather changed sudden-
ly on Wednesday night and
Thursday was cold and stormy
until after noon when the sun
again put in an appearance.John Kline is recovering
rapidly from effects of a spill
in his Ford, and bruises being
the chief damage he received.
The car is considerably wrecked.The movement to reorganize
the Board of Trade met with
a reception that evidenced the
realization on the part of every
one concerned that an effort
should be made towards a gen-
eral improvement of existing
conditions. That a united body
of citizens can accomplish many
things impossible under individ-
ual effort has been proved so
often as to be beyond dispute.
The acceptance of a certain
civil responsibility by residents
generally is a hopeful sign and
it is very certain that no harm
will result, while the opportu-
nity for real achievement is very
bright. Every man in the com-
munity should make it a point
to be on hand on Dec. 8th.
